Letters to the Editor

June 10, 1982

Editor:

The Wayne County Historical Society would like to express their thanks to the members of Protection Engine Co. #3 for their continued efforts in keeping the Steam Fire Engine, The A.M. Atkinson, in 'tip-top' shape. Once owned by this company, this hand-fired pumper was built in 1875 and purchased from the Silsby Manufacturing Co. of Seneca Fall, N.Y. in that year. It now belongs to the Historical Society and it is housed in #3 Fire Hall. This 'Old Pumper' represents a phase of our local heritage and the Society is pleased that it is a part of its Museum.

Our thanks to the members of #3 Fire Company.

Sincerely,
Marjorie Hill Treat
Trustee
